NEW FOR 2010

Following the recent success at the 2009 Medica Trade Fair, UK Trade & Investment is launching a partnering website where UK companies can book one to one meetings with dedicated international buyers and UKTI Commercial Officers at Arab Health 2010.

Additions to the partnering system include:

- Easily request buyers and commercial officers to visit your stand
- Block out times when you are unavailable
- Book a meeting desk on the UKTI stand

As a result of using our partnering meeting facilities at [Medica](#) 81% of delegates expect to win new business orders – don't miss out at Arab Health!

“We will definitely continue to use UKTI as a platform for partnering with other companies and for assisting us with market growth.”
