Department for  
International Trade

# ABHI is leading a HealthTech mission to Philadelphia from 24–28 September 2018 supported by the UK government.

The mission will commence at Advamed's *The MedTech Conference*, a global gathering of medical device, diagnostic and digital health executives, from all of the leading MedTech firms. With over 2,700 participants from 30 countries – including high-level government officials, regulators, industry executives, VCs, bankers, media and other MedTech stakeholders – this is an opportunity to take part in three days of educational programmes, workshops, business development and investor networking.

Following the Conference, ABHI will introduce you to a range of senior leadership and procurement teams, as well as leading clinicians and hospital systems at key organisations in Philadelphia. This bespoke week-long programme presents the ideal opportunity for UK companies looking to enhance growth and return on investment in the USA.

**Dates:** 24–28 September 2018

**City:** Philadelphia

**Cost:** £1,500 ABHI member and £2,000 Non ABHI member (excludes conference ticket, flights and accommodation)

**Grants:** DIT TAP funding of £2,000 available to eligible companies
