Dear Head of Procurement,

EU Exit NHS Trusts Contract Review Self-Assessment Methodology

DHSC has been developing plans for a “no-deal” exit from the EU, which would take effect on 29 March 2019. This may impact on procuring and timely supply of goods and services which could disrupt health and social care services that are delivered by your Trust. The statement below has been taken from the UK Government’s notice on preparations for a ‘no deal’ scenario:

“A scenario in which the UK leaves the EU without agreement (a ‘no deal’ scenario) remains unlikely given the mutual interests of the UK and the EU in securing a negotiated outcome. Following the publication of the UK government’s white paper for the future relationship on 12 July 2018, we are working with the EU’s negotiating team at pace to agree the terms of our future relationship alongside the Withdrawal Agreement later this year. However, it is our duty as a responsible government to prepare for all eventualities, including ‘no deal’, until we can be certain of the outcome of those negotiations”

DHSC has been working closely with Cabinet Office to implement a cross-government approach to identify agreements that may be impacted by potential changes to trading relations with the EU and developing mitigating actions to help ensure that there are suitable arrangements in place at the point of exit.

As part of this activity, DHSC has developed a Self-Assessment Methodology for NHS Trusts to use to review contracts that may be impacted by a ‘no deal’ EU exit. This methodology has been tested with four Trusts covering Acute, Mental Health and Ambulance Trusts and was presented at the recent DHSC Commercial Conferences.

What is Included within a Trust’s Contract Review

Trusts are expected to carry out a contract review of their third party procurement spend. It is recommended that Trusts apply the NHS Self-Assessment Methodology to carry out a triage of third party procurement spend, and then to carry out a deep dive analysis of those contracts deemed to be higher risk to the provision of healthcare services at 29 March 2019.

Categories / Suppliers out of Scope of Trusts Self-Assessment

It is acknowledged that some categories of spend and suppliers are best engaged with at a national level. These categories and suppliers are being managed centrally by DHSC, and are therefore out of scope of the Trust Self-Assessment. Table 1 provides details of the categories and suppliers that are out of scope. Any contracts or spend categories not included in this table should be reviewed at a local Trust level using the Self-Assessment Methodology.

Contact details have been provided against each of the areas in Table 1 to facilitate Trust questions or clarifications.

Spend Category/ Supplier	DHSC Role	Contact
Licensed Medicines and vaccines	<p>DHSC is engaging with pharmaceutical companies that supply the UK with licensed medicines at a national level. No changes to medicines procurement should be undertaken by NHS Trusts.</p> <p>For national programme vaccines and medicinal countermeasures, Public Health England is leading on contingency plans. No changes to procurement should be undertaken by NHS Trusts.</p> <p>Medicines and vaccines are out of scope of the self-assessment review.</p>	contractreview@dh.gsi.gov.uk
Medical devices and clinical consumables (MDCC)	<p>DHSC MDCC contingency plans include increasing stock levels nationally and putting in place arrangements to facilitate continued supply of products directly from the EU, as well as working with key suppliers, wholesalers and distributors to ensure that they are securing their own supply channels.</p> <p>Included in Annex A is a list of suppliers that the MDCC work stream have been in contact with. These suppliers are therefore out of scope of the self-assessment review. All other suppliers are in scope of the NHS Trust Self-Assessment.</p> <p>Trusts are responsible for reviewing other non-clinical /non-medical goods purchased (e.g. office solutions). Trusts are also responsible for assessing the supply chain for products supplied as part of service contracts (e.g. purchased healthcare), as these will not be covered by the MDCC contingencies.</p>	mdcc-contingencyplanning@dh.gsi.gov.uk
Food	<p>This category is being reviewed and managed centrally by DHSC. Instructions will be given to major producers of patient meals to put in place contingency arrangements, to account for short supply of certain ingredients imported from the EU.</p> <p>Guidance will be provided to hospital caterers, procurers of patient food and catering services, and PFI providers on actions to take in preparing to use substitute food stuffs to maintain nutritional balance of patient menu / meal offerings.</p> <p>Food and catering are out of scope of the self-assessment.</p>	contractreview@dh.gsi.gov.uk

Nutritional feeds	<p>This category is being reviewed and managed centrally by DHSC as a specific project, recognising there are a limited number of suppliers.</p> <p>The suppliers included in this project are Abbot, Fresenius Kabi and Nutricia. These suppliers are therefore out of scope of the self-assessment.</p>	mdcc-contingencyplanning@dh.gsi.gov.uk
Pathology/ in vitro diagnostic (IVD) devices	<p>This category is being reviewed and managed by DHSC as a specific project, recognising there are a limited number of suppliers nationally operating through different routes.</p> <p>The suppliers included in this project are Abbot, Beckham Coulter, Roche, Siemens and Sysmex. These suppliers are therefore out of scope of the self-assessment.</p>	mdcc-contingencyplanning@dh.gsi.gov.uk
Capital equipment and spares parts	<p>No specific contingency measures are being put in place in relation to the continuity of supply of capital equipment given the short term nature of any supply disruption and the ability to extend service life.</p> <p>However, <u>all</u> the associated spare parts will be considered as part of the MDCC contingency plans.</p>	mdcc-contingencyplanning@dh.gsi.gov.uk
Hotel services	<p>DHSC is managing the supply chain for laundry services that are named on the Crown Commercial Service framework Laundry and Linen Services RM1031. This framework includes the following suppliers:</p> <ul style="list-style-type: none"> • Berendsen UK Ltd; • Central Laundry Ltd; • East Lancashire Hospitals NHS Trust (ELHT); • East Sussex Healthcare NHS Trust; • Express Linen Services Ltd; • Grosvenor Contracts (London) Limited; • Maidstone and Tunbridge Wells NHS Trust; • Royal Devonshire and Exeter Hospital; • Salisbury Trading Limited; • Synergy Health Managed Services Ltd; and • The Pennine Acute Hospitals NHS Trust. <p>These suppliers are therefore out of scope of the self-assessment.</p> <p>Please note that Trusts are responsible for assessing the supply chain for all other Hotel Services including cleaning</p>	contractreview@dh.gsi.gov.uk

	products (not bought through NHS Supply Chain).	
Other major suppliers	<p>DHSC is working with other major wholesalers and distributors to understand their preparedness and contingency plans to ensure they are securing their own supply channels.</p> <p>This includes Bunzl plc (and its subsidiaries) and Squadron Medical Limited. Therefore these suppliers are out of scope of the self-assessment review for NHS Trusts.</p>	mdcc-contingencyplanning@dh.gsi.gov.uk

All contracts relating to clinical trials are excluded from this review as EU exit preparedness plans for this area are being dealt with separately through the EU Exit Research work stream at DHSC.

Self-Assessment Methodology

The Self-Assessment Methodology pack which accompanies this letter includes:

1. EU Exit - NHS Self-Assessment Methodology;
2. EU Exit - NHS Trust Triage Contract Data Template; and
3. EU Exit - Contract Data Consolidated Spreadsheet.

Government Support for the Self-Assessment

We have established a central team to support Trusts with relating queries. For Self-Assessment Methodology queries, please email contractreview@dh.gsi.gov.uk. If a Trust has queries relating to categories of spend or suppliers set out in Table 1, those queries should be directed to the email address allocated to each area.

DHSC will arrange a series of webex question and answer sessions. The dates and times for these sessions will be communicated by email to Heads of Procurement in the week commencing 15 October.

The Secretary of State for Health and Social Care has written to the Chief Executive of each Trust to emphasise the critical role of senior sponsorship in carrying out this exercise. The letter encourages chief executives to prioritise the resources necessary to carry out the self-assessment in a timely manner, and put mitigations in place, to ensure continuity of supply to front line services in the event of a 'no deal' EU exit.

Reporting the Conclusions from the Self-Assessment

Trusts are asked to provide DHSC with the results of the deep dive analysis, along with the proposed mitigation activities by 30 November 2018. Please send this to contractreview@dh.gsi.gov.uk.

I would like to thank you for your ongoing support to EU exit preparedness.

Steve Oldfield
Chief Commercial Officer
