

ARE YOU HEALTHTECH SAVVY?

Did you know that:

- › With **121,900 employees**, HealthTech is the largest employer in the Life Sciences
- › HealthTech is broad and diverse:

Implants

Single use

Capital

Instruments

Digital

Diagnostics

Robot-assisted surgery

- › In 2017 alone, the NHS conducted nearly **200,000** hip and knee replacement procedures, implanted over **60,000** cardiac devices and provided nearly **400,000** cataract operations
- › In the last year alone, the digital health sector grew **11%**
- › HealthTech is crucial in the treatment of a number of chronic and life threatening conditions including cardiovascular disease, cancer, and diabetes.

Will you ask to meet with your local NHS Trust to discuss how HealthTech is improving health outcomes for your constituents, and the delivery of local NHS care?
