ABHI

ABHI UK HEALTHTECH CONFERENCE

9th – 10th November 2026

Cavendish Conference Centre 22 Duchess Mews London W1G 9DT

Day 2 – Market Access

AGENDA

Time	Topic	Speaker
09:15	**Registration & Coffee**	
10:00	Welcome	**Luella Trickett** Executive Director, Value & Access, ABHI
10:15	The Market Access Environment	**Will Warburton** Director of Life Science Policy, NHS England **David Lawson** Director of Medical Technology & Innovation, Department of Health and Social Care **Chris Leech MBE** Director of Engagement & Social Value Impact, Rebuilding Future Alliance
11:00	System Leadership & Local Adoption	**Rakesh Uppal** CEO, Barts Life Sciences **Pia Larsen** Procurement Director Guys & St Thomas Hospital **Professor Carl Roobottom** Consultant Radiologist, University Hospital Plymouth **Jeff Bousfield** CEO, Nonacus
11:45	**Coffee Break**	
12.15	Investment & Commercial Decisions	**David Porter** Founding Partner, Apposite Capital LLP **Julia Hammac** General Manager, Diabetes Care, Abbott **Ashley Sweetland MBE** Vice President, Head of Global Corporate Affairs, Convatec **Peter Worrallo** Consultant, Penlon Limited
13:00	**Lunch**	

AGENDA

14:00	NICE, NHSE & National Access Pathways	**Professor Jonathan Benger** Chief Executive Officer, NICE **Dr Joy Allen** Head of Market Access and Public Affairs, Roche Diagnostics **Kristian Howells** Group Commercial Director, Medtronic **Nicola Bent** CEO, Health Innovation Wessex
14:45	**Coffee Break**	
15:15	Digital Health, Data & System Readiness	**Dr Muhammad Aslam** Consultant Pathologist & Clinical Director for North Wales Diagnostic and Specialist Clinical Service **Robert Dale** Senior Programme Manager, Digital Diagnostics and AI, NHS England **Dr Surbi Gupta** Head of Software and AI medical devices, NHS England
16:00	Neighbourhood Health	**Dr Dan Gilpin** Medical Director, Leeds Teaching Hospitals NHS Trust **Hannah Gagen** Head of Government Affairs & Patient Advocacy, Coloplast
16:55	Closing Remarks	
17:00	**Event Close**	

MEET THE SPEAKERS

Luella Trickett

Executive Director, Medical Devices, Value and Access, ABHI

Luella joined ABHI in 2019, with over 25 years' experience in the pharmaceutical and HealthTech industries. Her career has seen her hold numerous specialist manufacturing and commercial roles at Baxter Healthcare, with responsibility for a range of product portfolios across the HealthTech spectrum within the UK, Europe, Middle East and Africa.

In 2012, Luella was seconded to the Department of Health for nine months as the Industry Liaison for the NHS Procurement Review, a role which saw her engage with government and the wider Life Sciences sector to facilitate the sharing of ideas and best practice.

From 2015, Luella led Baxter Healthcare's Government Affairs and Public Policy agenda, where she was tasked with managing key policies impacting the HealthTech sector and the NHS - supporting change that enabled the adoption and spread of innovations that deliver whole-system value across healthcare settings.

Before joining ABHI, Luella Chaired the Association's Public Affairs Policy Group, and has been a Director of the Board at the British Specialist Nutrition Association.

Will Warburton

Director of Life Sciences Policy, NHS England

Will is the Director of Life Sciences Policy and Strategy at NHS England, enabling the transformation of healthcare through research, innovation and life sciences.

25 years into his career, he is committed to continuing to learn how to make effective change and improvement happen in healthcare.

He is also a Trustee at Tommy's, a UK charity that works to improve prevention of pregnancy complications, miscarriage, stillbirth and premature birth.

Will previously worked in management consultancy, as a director in the NHS responsible for operational delivery of local NHS services, as well as in senior roles at Imperial College London, the Health Foundation and the Shelford Group. He is now bringing that experience to the NHS at national level.

David Lawson

Director of Medical Technology & Innovation, Department of Health and Social Care

David Lawson is Director of Medical Technology & Innovation at the Department of Health and Social Care having commenced the role in October 2022. In this role, Mr Lawson is the Government policy lead for Medical Technology with responsibility for the implementation of the Government's inaugural Medical Technology Strategy published February 2023. Key initiatives include the Design for Life programme, to promote circular economy; Value Based Procurement Methodology and associated MedTech Compass to support evidence based decision making and enable a Passporting System, to be adopted for MedTech procurement; NICE Multi-Tech Assessments of existing product categories; National Product Information Management System; National Outcomes and Registries Programme, National Equipment Tracking Information System, reform of the Part IX Drug Tariff which controls MedTech prescribed in the community. David is also SRO for the Innovative Devices Access Pathway bringing together MHRA, NICE, NHSE to provide enhanced support for novel technology that meets an unmet need, and member of the Independent Advisory Committee (IAC) for the newly launched NIHR HealthTech Research Centres (HRCs) Network. Prior to joining the Department, Mr Lawson was the Chief Procurement Officer at Guy's and St Thomas' NHS Foundation Trust – a position he held for 21 years – and is a double winner of the Supply Chain Excellence Award in 2008 and 2021.

Chris Leech MBE

Business Development Director, Rebuilding Futures Alliance

Chris Leech MBE is a multi-International-award-winning social value impact and youth crime mitigation consultant and brings over 26 years of experience in the rail industry. He created the first community engagement role to reduce youth route crime which led to the creation of Track-Off Campaign a national framework resulting in a 54% reduction in route crime across the UK. A Principal Consultant who previously led membership development at the Rail Safety & Standards Board, significantly expanding its global portfolio across three continents. Known for his expertise in building strong commercial relationships, Chris is an experienced non-exec-Director who firmly believes that the prosperity of business and society are intrinsically linked. One cannot succeed without the other.

Pia Larsen

Chief Procurement Officer, Guy's and St Thomas' NHS Foundation Trust

Pia Larsen is the Chief Procurement Officer at Guy's and St Thomas' NHS Trust where she leads a large multisite team and a Shared Service covering four other trusts. Prior to her most recent appointment, Pia led an award-winning team at UCLH, through a transformation programme spanning 10 years. She has held senior procurement roles at several eminent NHS Trusts where transformation has been at the heart of her success. Pia has a passion for authentic leadership, building high performing teams and equality, diversity and inclusion with a particular interest in gender equality. Pia holds a first-class honours degree in Management, is a Fellow of the Chartered Institute of Purchasing & Supply, a Member of the Chartered Institute of Management and has recently completed an MBA with Distinction at Hult (Ashridge) University.

Professor Carl Roobottom

Consultant Radiologist, University Hospital Plymouth

Professor Carl Roobottom has been a consultant radiologist at Derriford since 1995. He oversaw the development of the Peninsula Radiology Academy for the training of radiologists - the only such centre in the world - which is one of the largest radiology training schemes in the country, with above average exam results. In 2009 he was appointed Professor of Radiology and splits his time between the hospital, Academy and Plymouth University Peninsula School of Medicine and Dentistry.

Prof Roobottom is one of the country's leading experts on cardiac CT, and has written articles and book chapters on the subject as well as sitting on government expert panels such as the National Imaging Board, and for the National Institute of Health and Care Excellence (NICE). He has level 3 (the highest) accreditation with the British Society of Cardiovascular Imaging for cardiac CT.

Prof. Roobottom has extensive research experience over last 15 years and is a current member of Plymouth Hospitals NHS Trust Research Committee. He currently is MD supervisor for 3 post-graduate medics. Published in excess of 100 peer reviewed publications & 350 abstracts. Extensive International presentations. Editor of 2 main Radiology journals UK. Organiser of UK Radiology Congress last 3 years (cardiac). Advised DoH and NICE on CT. Developed Training and accreditation programs for Cardiac CT for UK. Awarded research CT scanner by DoH. Helped develop CT technology with world's largest CT manufacturer.

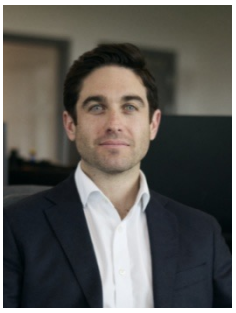

Rakesh Uppal

CEO, Barts Life Sciences

Professor Rakesh Uppal is Chief Executive Officer of Barts Life Sciences, leading the programme to strengthen collaboration between industry and Barts Health NHS Trust and overseeing the development of the Barts Life Sciences Cluster in East London. The programme focuses on developing healthcare innovations and accelerating their adoption to improve patient outcomes, reduce health inequalities and support one of the UK's most diverse and disadvantaged populations.

Professor Uppal brings decades of clinical, academic and translational research leadership. A Consultant Cardiac Surgeon at the Barts Heart Centre and Professor of Cardiovascular Surgery at Barts and The London School of Medicine and Dentistry, he leads a renowned tertiary surgical service and serves as Research Lead for the Heart Centre. He has held senior roles across Barts Health, the NHS and Royal Colleges, shaping national policy and advancing international standards in cardiac care. His contributions to surgery and translational science were recognised with the award of FRCS (ad hominem), the College's highest professional distinction, in December 2024.

Previously Medical Director of Barts Life Sciences, Professor Uppal has championed the creation of the Barts Life Sciences Cluster, bringing together industry, clinicians and researchers to accelerate innovation and improve patient care. As a board member and advisor to several HealthTech, biotech and fintech companies, he has also helped connect NHS expertise with the UK's technology and investment ecosystem.

Jeff Bousfield

CEO, Nonacus

Jeff Bousfield is a life sciences and technology leader with experience across finance, operations and growth, from GSK to senior roles in scale-up businesses. As CEO of Nonacus, he is focused on bringing accurate, non-invasive cancer testing closer to patients and giving people faster, clearer answers when cancer is suspected. This includes expanding access to at-home diagnostics that can help improve cancer pathways while making better use of NHS capacity.

Julia Hammac

General Manager, UK and Ireland Diabetes Care, Abbott

Julia joined Abbott in 2018 as Director, Strategic Planning, Diabetes Care. She has held several positions at Abbott, including Senior Commercial Director, EMEA Diabetes Care. Julia assumed her current role as General Manager, UK and Ireland, Diabetes Care in March 2025.

Prior to joining Abbott, Julia worked for McKesson Corporation, as VP Corporate Strategy and Business Development and then VP Growth & Business Development Retail Pharmacy Solutions. Prior to that, Julia worked for Deloitte Consulting, with focus on strategy and operations consulting across health care sectors. She began her career as a financial analyst for a public-sector consulting firm.

Julia attended Stanford University and holds a Bachelor of Science in Industrial Engineering and a Master's Degree in Business Administration.

In her free time, Julia enjoys spending time outside with her husband and two daughters, as well as cooking, reading, and exploring new places.

Ashley Sweetland MBE

Vice President, Head of Global Corporate Affairs

Ashley Sweetland is Vice President, Head of Global Corporate Affairs at Convatec, a leading medical products and technologies company. His role includes responsibility for global communications, corporate brand stewardship and reputation, responsible business and a diverse range of stakeholder engagement.

With more than 20 years' experience in corporate affairs, communications and responsible business, Ashley has held communications leadership roles at IHG Hotels & Resorts and CBRE, and previously worked in consultancy advising organisations including BT, Lloyds Banking Group, London 2012 Olympic and Paralympic Games, and public sector clients. He is a Trustee of St John England, the parent charity of St John Ambulance.

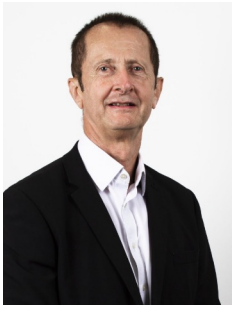

Peter Worallo

Consultant, Penlon Limited

A highly accomplished former CEO and now business development consultant with 35 years of domestic and international experience in the medical device sector. Working predominantly with venture capital-backed organisations, I have a proven track record of driving corporate growth, scaling revenues, and executing successful M&As and divestures.

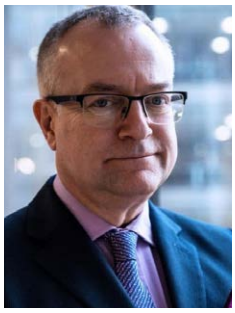

Throughout my career, I have overseen the launched of numerous innovative medical devices, expanded global distribution networks, and played a key leadership role in major initiatives in the US, China, India, Latin America and the Middle East. As a Board Director for the Association of British Healthtech Industries (ABHI), I combine board-level strategic SME expertise with strong regulatory and commercial awareness. I hold an MBA from Henley Business School.

David Porter

Founding Partner, Apposite Capital

David has over 30 years of experience in private equity and investment banking. He has advised on a wide range of companies and at Apposite, he serves or has served on the Boards of Crestoptics, Habitus, 1Med, MC Care Holdings, NIMGenetics, Swanton Care, CancerPartnersUK, Ulthera, Zonare and Xthetix. Prior to co-founding Apposite in 2006, David worked on a number of large leveraged buy-outs with Nomura's Principal Finance Group. He then founded and headed Nomura's International's healthcare investment and corporate finance groups. David has been the CEO of a number of companies, including CLF Municipal Bank, an authorised bank. David is very involved in the UK healthcare industry, having served as a member of the UK government's Health Reform Group looking at reforms to the provision of healthcare to NHS patients and on the London Health Commission. David has a degree in Chemistry from Oxford University.

Professor Jonathan Benger

Chief Executive Officer, NICE

Jonathan joined us in January 2023 as chief medical officer and in March 2023 became interim director of the centre for guidelines. Jonathan was subsequently appointed deputy chief executive in May 2024 and chief executive in December 2025.

Prior to this he was the interim chief clinical information officer (CCIO) at NHS England (2022), the chief medical officer (CMO) of NHS Digital (2019 to 2022), and the national clinical director for urgent and emergency care at NHS England (2013 to 2019).

In his clinical work, Jonathan is a consultant in emergency medicine at the Bristol Royal Infirmary and also does regular shifts with the Great Western Air Ambulance, which he established as its first medical advisor between 2007 and 2011.

Jonathan is professor of emergency care in the school of health and social wellbeing at the University of the West of England, and a National Institute for Health Research (NIHR) senior investigator. His main research interests relate to cardiac arrest, emergency and pre-hospital care, service organization and delivery, and design research.

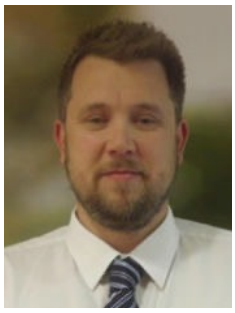

Dr Joy Allen

Head of Market Access and Public Affairs, Roche Diagnostics UK & Ireland

Dr. Joy Allen is head of market access and public affairs at Roche Diagnostics UK and Ireland. Joy has been with Roche Diagnostics UK and Ireland since 2021. She initially joined as a health economics manager and has recently transitioned into the role of head of market access and public affairs. Joy now leads the health economics, public affairs and market access teams to support broader patient access to diagnostics and devices which provide benefits to patients and the health care system.

Prior to joining Roche, Joy spent over 10 years at the NIHR-funded In Vitro Diagnostics Co-operative Newcastle as a senior methodologist. There, she led a team of interdisciplinary scientists to support healthtech developers with evidence development and access requirements for adoption into the UK NHS. Notably, during the pandemic Joy was a co-founder of the COVID-19 National Diagnostic Research and Evaluation Platform (CONDOR) which provided a single national route to evaluate new diagnostic tests for COVID-19 as well as a contributing member of the NIHR Urgent Public Health Committee.

Kristian Howells

Group Commercial Director, Medtronic UK and Ireland

With a career spanning over 26 years, initially in Covidien and subsequently with Medtronic, Kristian is an experienced leader in Medtech. His career has spanned multiple specialities including data analytics, contracting, procurement, supply chain, sales, and sales leadership. He has held various leadership positions including leading Medtronic's Respiratory business & indirect sales channels.

In his current role, Kristian is responsible for commercial policy alignment and government-level procurement stakeholders for Medtronic UK & Ireland. Additionally, he leads on programmes for Sustainability, Commercial Model development, and Market Access, and sponsors the Medtronic Young Professionals Network.

He is driven by a passion to solve complex healthcare challenges. He has led several key projects for Medtronic which have delivered on this. Notably MedPoints, a $1bn commercial program targeting investment in frontline services, and a blueprint for a drone-based logistic model for MedTech, both deriving from his intrinsic knowledge of the NHS and government strategic drivers.

Kristian has been a passionate and active member of the ABHI for many years, supporting various member forums including Sustainability, Commercial Value, and Access.

Nicola Bent

Chief Executive Officer, Health Innovation Wessex

Nicola joined Wessex AHSN (now renamed Health Innovation Wessex) in April 2020 from the National Institute for Health and Care Excellence (NICE), where she was Deputy Director of Health and Social Care and Programme Director for System Engagement. She became Chief Executive of Health Innovation Wessex in January 2023 and maintains her joint portfolio as Director of Innovation.

Nicola is a registered pharmacist, who has over 20 years' experience in health and social care, working in senior roles at national, regional and local level on implementation, quality improvement, strategy and transformational change, medicines optimisation and patient safety, and cross sector partnership working.

Dr Muhammad Aslam

Consultant Pathologist & Clinical Director for North Wales Diagnostic and Specialist Clinical Service

Dr Muhammad Aslam is a consultant pathologist and Clinical Director for North Wales Diagnostic and Specialist Clinical Services. Since moving to North Wales in 2015, Dr Aslam has overseen several pioneering projects which promise to revolutionise pathology services. His research interests are in the development of Artificial Intelligence tools to aid pathology.

Robert Dale

Senior Programme Manager, Digital Diagnostics and AI, NHS England

Rob is the Head of Artificial Intelligence (AI) in Diagnostics at NHS England. He joined NHS Digital in 2017 and has previously worked on the National e-Referral Service as well as the Bowel Cancer Screening Programme. He moved into Diagnostics in 2021, as part of the National Digital programme which invested over £700m into diagnostic services. Alongside the NHS AI Lab, in June 2023 he setup the AI Diagnostics Fund (AIDF) deploying AI into radiology for sixty-six trusts across England and has led its delivery throughout. He is now leading the next four years of strategic investment in Diagnostic AI based on the success of the AIDF.

Dr Surbhi Gupta

Head of Software and AI medical devices, NHS England

Dr. Surbhi Gupta is the Head of Software and AI devices at NHS England, where she leads regulatory strategy for high-impact digital health products and supports the safe adoption of AI across the NHS. Her portfolio includes nationally deployed products such as Pathways, 111 Online and Digital Health Checks, and she also advises the joint DHSC/NHS-E national AI team on regulation, policy and implementation.

With a career spanning biotech research, medtech start-ups and national health systems, she specialises in turning innovative ideas into deployable, regulated healthcare solutions. She has built quality, regulatory and clinical frameworks for emerging technologies, supported innovation funding and assessment through NIHR, and is a member of the MHRA AI Airlock board.

Dr. Gupta holds a PhD in Biotechnology, completed postdoctoral cancer research funded by Cancer Research UK, and later earned an Executive MBA from Warwick Business School, where she explored the transformative potential of AI in healthcare.

Dr Dan Gilpin

Medical Director, Leeds Teaching Hospitals NHS Trust

Dr Dan Gilpin is a Consultant Paediatric Anaesthetist at Leeds Teaching Hospitals NHS Trust and Medical Director (Partnerships & Integration). He is a senior clinical leader in the development of neighbourhood health across Leeds, helping shape new models of integrated, proactive and community-based care. His work spans system transformation, digital innovation, population health and healthcare sustainability, with a particular focus on redesigning services around neighbourhoods, multi-neighbourhood hubs and integrated care pathways. Dan works closely with other NHS organisations, local government, academia and industry partners to develop and evaluate the infrastructure, technology and collaborative models needed to deliver neighbourhood health at scale.

Hannah Gagen

Head of Government Affairs & Patient Advocacy, Coloplast

Hannah heads up Government Affairs & Patient Advocacy as well as overseeing UK media and press work. She works across the Coloplast UK & Ireland business on issues ranging from health policy to campaigning on patient rights. She has a personal interest in the company as she has a stoma and has previously been on the board for a stoma charity. Before joining Coloplast Hannah led the public affairs for the UK's theatre trade body during COVID and Brexit. This was preceded by her roles in corporate comms for Starbucks EMEA; as Public Affairs and Patient Engagement Manager at Pharmaceutical company, Boehringer Ingelheim; public affairs roles in Marie Curie Cancer Care and for a government arm's length body. Prior to this, she started her career in politics as a political researcher for a Public Affairs agency.

MEET OUR EXHIBITOR SPONSORS

Eastern England SECURE DATA ENVIRONMENT

Eastern England Secure Data Environment

The Eastern England Secure Data Environment (SDE) provides secure access to data and analytics services through an NHS-hosted and managed digital platform.

As part of a national network of NHS Secure Data Environments, the Eastern England SDE provides data services built on a federated model that enables cohort discovery across longitudinal secondary care data, including diagnostic results and prescribing data that are unavailable elsewhere. All data are mapped to a common data model to support consistent analysis.

Data are sourced from the NHS across Eastern England, which covers a population of just under 12 million people. Uniquely, the platform enables approved researchers to link data from multiple electronic health record (EHR) systems, supporting rapid cohort discovery and de-identification in a matter of hours rather than months.

Researchers can use the platform's cohort discovery services to rapidly assess data availability and identify potential study populations, helping to determine project feasibility in a matter of hours rather than months. Once approved, researchers can securely access and analyse data within the SDE to support clinical research, healthcare innovation, AI development and service evaluation.

The Eastern England SDE also offers a Bring Your Own Data service, enabling organisations to securely bring approved datasets into the environment for analysis alongside NHS data, supporting collaborative research, evidence generation and innovation that improves healthcare.

MEET OUR EXHIBITOR SPONSORS

Firefinch Software

Firefinch Software develops custom software for life science companies. Our expert-led development team combines deep scientific domain knowledge with regulatory compliance and strategic insight to help you build the right product, ready to scale.

Strong domain expertise. Firefinch deliver solutions in medtech, biotech and medical devices and with companies ranging from start-ups to large multi-nationals. We take pride in delivering excellent client outcomes while strengthening clients' core capabilities.

Your software team for hire. Firefinch can provide an entire cross-functional product team or can embed senior consultants with existing teams to strengthen their delivery capability. All projects are supported directly by a senior consultant and offer access to the skills of the entire team no matter the size of the project.

Built for long-term success. The Firefinch team adapt to the client's needs. From the code to control a device through to cloud platforms for interacting with your data, we are experts at end-to-end solutions aimed at both external customers and internal business users.

Genedrive

Genedrive is a Manchester-based diagnostics company delivering rapid pharmacogenetic testing solutions that support safer, more personalised prescribing across critical care pathways.

Developed and validated in partnership with the NHS to address real-world clinical challenges, Genedrive's innovative technology empowers healthcare professionals with actionable genetic insights to optimise treatment decisions and improve patient outcomes.

Our molecular diagnostics platform and two flagship assays, the Genedrive® MT-RNR1 ID Kit and Genedrive® CYP2C19 ID Kit, are already in routine clinical use in acute and emergency settings, including neonatal and stroke care, with implementation growing across the UK and internationally. These solutions are helping drive real world patient impact, support more equitable access to healthcare and advance productivity and prevention goals in line with the NHS Ten Year Plan.

IMed Consultancy

Your Partner in Regulatory, Quality and Clinical Excellence

About Us

IMed Consultancy is a specialist regulatory, quality and clinical consultancy supporting medical device, IVD and life sciences companies worldwide. From early-stage innovators to established manufacturers, we help organisations navigate regulatory complexity, achieve compliance and access global markets throughout the product lifecycle.

Our Expertise

Our experienced consultants provide tailored support across regulatory strategy, EU MDR and IVDR, UK and US market access, technical documentation, clinical evaluation, quality management systems, auditing and post-market surveillance.

We also provide UK Responsible Person (UKRP) and EU Authorised Representative (EUAR) services, helping international manufacturers meet their regulatory obligations and maintain market access.

Through our specialist talent solutions, we support organisations with contract staffing, interim expertise and permanent recruitment across Regulatory Affairs, Quality Assurance and Clinical Affairs.

Our Approach

We combine deep technical expertise with commercial understanding to deliver practical, risk-based solutions. Whether launching a new product, overcoming regulatory challenges or strengthening internal teams, we work collaboratively to deliver solutions aligned with our clients' objectives.

MEET OUR EXHIBITOR SPONSORS

Team Leidos

Team Leidos brings together specialist defence knowledge, commercial expertise and advanced technology to deliver reliable, resilient logistics for the UK Armed Forces. Through the Logistics, Commodities and Services Transformation (LCST) programme, we manage critical supply-chain activity spanning procurement, inventory, storage, distribution and global freight - helping Defence maintain readiness at home and on operations.

Our Medical Support Services team applies a patient-first mindset to an integrated, end-to-end medical, dental and veterinary supply chain. Working closely with the Defence medical community, suppliers and operational partners, we connect planning and procurement with equipment lifecycle management, regulatory assurance, storage, distribution and frontline delivery. This creates a clear golden thread from medical logistics to the point of patient care.

From routine healthcare to high-tempo deployments, Team Leidos combines data-led planning, specialist healthcare expertise and agile decision-making to respond to changing demand. We help protect product availability, manage shelf life, maintain compliance and strengthen resilience across complex supply chains. By engaging early, collaborating across organisations and focusing on the operational effect required, our people enable medical teams to access the right materiel, in the right condition, at the right time.
